

Premier Bracken's Wheat Pool Reorganization Proposals Are Approved

DIRECTORATE TO CONSIST OF NINE MEMBERS

Elevator Associations to Distribute Dividends on Cash Surpluses

Canadian Press

TORONTO, Ont., Aug. 1.—Proposed reorganization of the Canadian association of Manitoba's Wheat Pool and its subsidiary elevator system were approved Friday by the executive committee of the last convention of pool delegates.

Three amendments were adopted over the original suggestions advanced a month ago.

In the first case concessions were made to the elevator associations. Delegates supported a plan whereby the pool would pay dividends to all elevator members, two appointed by the provincial government and with power of veto on any proposed question.

Premier Bracken agreed that elevators should receive dividends in tribute to members' dividends on any cash surpluses now held and earned as a result of the new arrangements which would be in the stead of the original plan that the surplus be handed over to the pool.

The government, through its leader, also agreed to support any amendment to be held by the pool that would properly allow to platform shipping interests to take care of all elevator associations having a surplus more than one-half to one-half to their regular account.

Disagreement was expressed for the report of the Royal Commission on Wheat, which was accepted by the government as a Royal Commission by the government to investigate charges of manipulation and fraud against the Manitoba Pool, Premier Bracken said, and R. Murray, Premier again grain man.

In addition, the executive committee of the elevator associations, led by Colin Burns, of Osserville, J. Parker, Sanford; W. O. Gourlay, Dauphin; George H. McLean, Brandon; Fred Kenna, J. W. Baldwin, Beausejour; and George McConnell of Macdonell.

of the supplies have been waiting in Norway since the day the magician's job to stow our iron whale to the best advantage. Every one has something to do, and we are doing it, but only things actually required can be taken.

We were prepared at 6 a.m. Friday, while passing through fog and haze, to receive a call. A fisherman and his mate had come up from the port and the captain offered us some fish. We were so busy getting ready for the act as well as his fish, that we had about forty miles from the Norwegian coast before we could accept.

At 10 a.m. we sighted land, and have been keeping a sharp eye since. At 12 m., in a gale, we crossed the mandarin line, of the Royal Norwegian air force, who were sent to pilot us into the navy yard, where, through the courtesy of the Norwegian government, we prepare for our trip in Arctic waters.

The stowing of supplies and taking on of fuel and water has been delayed for every hour counts now. The starboard engine is still out of commission, and we must make do. But Engineers Shaw and his staff will be busy on that the moment we arrive.

RELIEF BILL

CONTINUED FROM PAGE ONE

bill to March 1 next in place of March 15, 1931, so that the government would have me and any necessary grants for unemployment relief ready to meet any emergency.

The bill said R. H. Mackenzie King, was in complete substance of the right to pass legislation concerning employment, especially on a large scale. He recommended that the bill be seen fit to accept the suggestion of the opposition members.

MAT CANADA

The course the Government was pursuing "may help to aggravate the situation," he said. "It may also possibly occasion riots, serious trouble and further unrest and strife."

A member of the Winnipeg North Centre said he protested against the proposal that unemployment be coupled with unemployment relief, and stated it was significant that the bill was introduced at the head of the Royal Canadian Mounted Police, and that a man was ordered to an unemployed camp and refused to go, he then would be compelled to go to the police or both. This, said Mr. Woodworth, was a violation of the liberty of the individual.

The amendment should be adopted by the Government, urged D. E. Ender, Lib. (Winnipeg North). It would prevent the application of the principles of constitutional government.

URGES AMENDMENT

His own views were reflected in the amendment introduced by Hon. Bourassa, (Int. Liberal).

Mr. Bourassa said that modification be made in the principle of the bill so that no employment relief would come in place of the existing good government. I am not concerned about the political results," he stated.

"Nor am I," Premier Bennett declared.

"I believe that," Mr. Bourassa replied, "the proposed modification suggested would be proper."

ONTARIO HYDRO GIVES APPROVAL

\$50,000 to John Aird Jun. in O.K.'d

Canadian Press

TORONTO, Ont., Aug. 1.—Approved the payment to John Aird, Jr., of Toronto, president of the Ontario Hydro-Electric Power Commission was the Ontario Municipal Election Association.

In a special session here the association decided the transaction was "for valuable services" and was in the best interest of the province.

Several Edmonton Men To Make Trip To Northern Port

Several names have already been received by John Blair, secretary of the Canadian Association of the Elevator Members who wish to take part in the trip to Churchill, on the Hudson Bay.

The trip will precede the annual meeting of the Canadian Association of Commerce to be held at Regina on September 10.

The trip will be organized by the Chamber of Commerce of the last-named and has extended an invitation to the Edmonton Chamber of Commerce to join them.

Edmonton delegates will leave the city Saturday morning at 8 a.m. and arrive at Saskatoon at 1:45 p.m. and the special will leave at 5 p.m. the same day.

summarized several alternative schemes.

He did not say what the government would be able to gather sufficient capital to complete the project.

He said the government would conclude the property and operate it as a public utility. Legal difficulties would be overcome by having the company operating it on a public ownership basis, and the company would be the company as the only possible alternative.

Mr. Lindbergh, who was flying the prime minister made his pronouncement. His caustic criticism of the government's policy to the business community came from the Beaumarais Company which, he said, had been charged to Mr. Macmillan. King was using smoke-screen methods in demanding a special committee to probe party campaign funds.

The Liberal leader was attending a luncheon of the Canadian Club of Ottawa. At the meeting he received a telegram from Beaumarais, he said. The government had no intention of establishing a special committee to probe campaign funds. All charges were made on the floor of parliament, and he was the only possible alternative.

Mr. Lindbergh, who was flying the prime minister made his pronouncement.

Mr. Macmillan, King was using smoke-screen methods in demanding a special committee to probe party campaign funds.

The Liberal leader was attending a luncheon of the Canadian Club of Ottawa. At the meeting he received a telegram from Beaumarais, he said. The government had no intention of establishing a special committee to probe campaign funds. All charges were made on the floor of parliament, and he was the only possible alternative.

MILL 19 ADVANCED

The government's unemployment bill which would give the administration power to deal with emergency situations was advanced one stage despite strenuous protestations from the Opposition.

Mr. Bennett, was argued, was usurping the powers of parliament by giving the government the right to decide the amount of money that might be expended by the government and parliament should regulate the funds.

Climaxing the Prime Minister's speech, the formal announcement was made of the royal commission that investigated the Beaumarais

bondholders in the enterprise will be protected, the prime minister clarified.

Mr. Bennett said the government will stipulate that provision must be made for the bondholders who had invested thirty million behind the project.

WORKS TO BANKERS

Mr. Bennett's final question concerning how the organization company would operate, was answered by the report of the royal commission that investigated the Beaumarais

bondholders in the enterprise will be protected, the prime minister clarified.

Mr. Bennett said the government will stipulate that provision must be made for the bondholders who had invested thirty million behind the project.

EDMONTON BULLETIN IS FOR IT**

SATURDAY, AUGUST 1

INDUSTRIAL CANADA

If Canadian manufacturers are down-hearted there is certainly nothing to reflect that state of mind in the July issue of Industrial Canada, the official publication of the Manufacturers' Association. This is a number of 376 pages, itself a triumph of the printed art—illustrations, letter press arrangement and general get-up, while the advertising pages comprise a catalogue of nationally known industrial establishments from coast to coast.

The volume is concerned almost exclusively with the 60th annual meeting of the Association, held in Victoria, B. C., and with the journey of the excursionists across Canada to and from the gathering. The book contains many excellent views of scenes at the leading points visited and of beauty spots in the mountains along the two routes followed in the westward and eastward trips. Editorials, news items, staff commentaries come in for an appropriate share of attention, which lends interest to the issue for residents of these places and for Albertans generally.

IN THE 'BLUE' AS USUAL

At its session at this season, the Alberta Telephone Department has issued a vari-colored map of the province, showing the conditions of the crops as at July 25th. The map is compiled from information supplied by the various districts, departments and services, and at a glance what the crop situation was at that date, the produce over and in each of the major sections.

The northern and central areas, as far south as a line from Didsbury to Provost, westward to the fringe of softstem and eastward to the Saskatchewan border, is solid blue, with the exception of three very small patches of pink, all follow the same pattern of region crops range from 60 per cent to 100 per cent good.

From Didsbury south to Raymond, and from Exshaw on the west to Gleichen on the east, with a narrow strip running to the Saskatchewan boundary at Coopers, the landscape is pink. Crops here have been almost entirely suspended for the last week, owing to the continued rain.

Forty Years Ago

From the Files of the Edmonton Bulletin

Photograph from Ottawa—Sir John A. Macdonald is dead.

He died in his bed in the suburbs of Paris on Sunday. Fifty thousand people crowded around the body in his parlour.

The C.P.R. will commence operating the C. & E. about the 10th of August, and will run a mixed train each day.

Dixon and O'Brien were released from Galaxy jail and were given a great reception. Both repudiate Garrison's leadership.

In the Legislature, Dredging's resolution granting a subsidy of \$4,000 acres of land six miles to the Red Deer Railway and Coal Co. was reported by the committee of the whole.

Robert McRae told the politicians and electors that his brother Tom had \$8,000 out of the Batare Chais railway without putting a dollar into it. He also got \$190,000 out of the Esquimalt dock contract and profits, besides shares in the Quebec, Lewis, Kingston harbour works. Robert, having given them \$70,000 out of the latter.

In the Committee, Davison again retold his grievances and said his brother Tom had \$8,000 out of the Batare Chais railway without putting a dollar into it.

The C.P.R. will commence operating the C. & E. about the 10th of August, and will run a mixed train each day.

Private charity found itself a year ago in a difficult position due to the disastrous situation.

(3) The public agencies are to act as single agencies.

(4) Public charitable city and county have shown themselves defective.

(5) The instances of regularization of employment within industrial units have been few, and the instances of regularization of the total working forces of the country.

(6) As the wage rolls up to staggering proportions and the reserves of capital are exhausted, we can no longer take the place of steady, secure employment.

(7) The U.S. is rapidly approaching the point where the national government must take a hand in the regulation of the sources of relief funds, private and municipal, gradually but surely dry up.

(8) There are now impossible to any country which properly values its independence and self-reliance to give such protection against the financial crisis.

(9) There would seem to be no sound reason why unemployment compensation should not be available and free from danger, cannot be universally adopted.

(10) The present unemployment insurance is only a palliative and cannot take the place of steady, secure employment.

(11) Government legislation must revise tariffs and remove restrictions on imports before chronic industrial distress can revive.

(12) International marketing plans must be adopted before chronic industrial distress can revive.

(13) The world is to bear this in mind.

There is other truth succinctly put:

TEN YEARS AGO

G. G. T. Denison, for forty-four years police magistrate of Toronto, is to retire.

A section of the Edmonton automobile association has been organized at the suggestion of Mr. George H. Hartman who has given a contract next year to the Medicine Hat Agricultural association.

Chamonix, France—Darofox the aviator flew to the summit of Mont Blanc and landed there, 15,182 feet above sea level.

A Thought

By EDGAR A. GUEST

Perhaps we have wondered for what from God meant.

And planned these lives of ours to be?

Made ourselves instead of slaving free.

And costed the world with crops of discontent.

With every new trial we invent.

Which not to us is labeled poverty.

With the arrival of misery of Grief which our strength and courage must be spent.

Fame and fortune and pride vexations.

If we were wise enough these bures to seem.

Perhaps our hearts would not so often aches.

This might be less to fret about and mourn.

Stealing too much may be mankind's mistake!

A simpler heart lets us less terrors.

Victoria Times—As far as New Zealand is concerned, Canada, instead of being compelled to compete in that market on all fours with foreign countries, has the advantage of the recognition of its currency. Premier Forbes is waiting for the Dominion to move in the matter.

There is no suggestion in any quarter that the project should or might be abandoned. That it will be completed is taken for granted, as being in the public welfare.

The time has come when the bulk of the Dominion Government to intervene in the carrying out of the enterprise, in the interests of those who have invested money in it, as in the interests of the pub-

Remedies

By DR. FRANK

The tiny-against-U.S. National Conference of Social Work reached a high point of insight in the address of Dr. Frank, president of the American Federation of Jewish Charities.

Here are twelve trenchant sentences from Dr. Frank's address on social methods in the U.S.:

(1) A year ago, dealing with the social problem, he had shown the gravity of the effect made.

(2) Private charity found itself a year ago in a difficult position due to the disastrous situation.

(3) The public agencies are to act as single agencies.

(4) Public charitable city and county have shown themselves defective.

(5) The instances of regularization of employment within industrial units have been few, and the instances of regularization of the total working forces of the country.

(6) As the wage rolls up to staggering proportions and the reserves of relief funds, private and municipal, gradually but surely dry up.

(7) The U.S. is rapidly approaching the point where the national government must take a hand in the regulation of the sources of relief funds, private and municipal, gradually but surely dry up.

(8) There are now impossible to any country which properly values its independence and self-reliance to give such protection against the financial crisis.

(9) There would seem to be no sound reason why unemployment compensation should not be available and free from danger, cannot be universally adopted.

(10) The present unemployment insurance is only a palliative and cannot take the place of steady, secure employment.

(11) Government legislation must revise tariffs and remove restrictions on imports before chronic industrial distress can revive.

(12) International marketing plans must be adopted before chronic industrial distress can revive.

(13) The world is to bear this in mind.

There is other truth succinctly put:

Keeping Mentally Fit

By JOSEPH JASTROW, M.D., PH.D., LL.D.

THE THREE DIMENSIONS OF INTELLIGENCE

A psychologist has recently given the name to a problem which, if not solved, will bring about the downfall of civilization.

There are twelve trenchant sentences from Dr. Frank's address on social methods in the U.S.:

(1) A year ago, dealing with the social problem, he had shown the gravity of the effect made.

(2) Private charity found itself a year ago in a difficult position due to the disastrous situation.

(3) The public agencies are to act as single agencies.

(4) Public charitable city and county have shown themselves defective.

(5) The instances of regularization of employment within industrial units have been few, and the instances of regularization of the total working forces of the country.

(6) As the wage rolls up to staggering proportions and the reserves of relief funds, private and municipal, gradually but surely dry up.

(7) The U.S. is rapidly approaching the point where the national government must take a hand in the regulation of the sources of relief funds, private and municipal, gradually but surely dry up.

(8) There are now impossible to any country which properly values its independence and self-reliance to give such protection against the financial crisis.

(9) There would seem to be no sound reason why unemployment compensation should not be available and free from danger, cannot be universally adopted.

(10) The present unemployment insurance is only a palliative and cannot take the place of steady, secure employment.

(11) Government legislation must revise tariffs and remove restrictions on imports before chronic industrial distress can revive.

(12) International marketing plans must be adopted before chronic industrial distress can revive.

(13) The world is to bear this in mind.

There is other truth succinctly put:

On This Date

AUGUST 14

This day two hundred and twenty-five years ago, opened very brightly for a certain section of the population of England, for it was the death day of King George III.

King George III, curiously enough—Queen Anne died on the same day.

The tax did not appear to have been a particularly heavy one according to the records, but it was probably the result of the progressive education leading to the fall of the Bastille.

Even so, the king died in 1820.

He was succeeded by his son, George IV.

George IV was a good man.

He was succeeded by his son, George V.

George V was a good man.

He was succeeded by his son, Edward VII.

Edward VII was a good man.

He was succeeded by his son, George VI.

George VI was a good man.

He was succeeded by his son, Elizabeth II.

Elizabeth II is a good woman.

She is the Queen of England.

She is the Queen of Great Britain.

She is the Queen of the Commonwealth.

She is the Queen of the British Empire.

She is the Queen of the British Isles.

She is the Queen of the United Kingdom.

She is the Queen of the Commonwealth.

She is the Queen of the British Commonwealth.

TODAY'S BULL-ONLY
The limbs of the free clinic and a rather prevalent desire to make medical bills have made the practice a precarious one, says Dr. Fredie Danau.

And yet most doctors can make a success of life if they only have patients.

LINES
Linn hearing Miss Mar Park play the Linn (Rogers) piano in the studio of children at Regina).

The happy voice of childhood, filled with glee, was heard to stir the sports fans, there will be a big lot of everything in the way of fun this weekend, and for the civic holiday.

Was happy to silence as the notes came in from the city, "Strangled the laughter in their trim."

And then came chords—and then a melody.

Cuckoo! Cuckoo! Water falling on white blossoms.

Then blossoms, children sitting there (I sat there alone).

Yes I sat there alone,

The voices of the forest rose and fell;

(Nor did I hear the shuffling of feet.)

I heard the wind go laughing through the trees,

I heard the rustling music of the wheat.

I heard the rain patter on the pane,

Wind, rain in the air and spring is nigh.

The call of youth sang to me once again,

And, yes, I fear I heard a bitter sigh.

But there was no gladness, rippling brooks,

Wells and streams, onwards, on towards the sea,

And then the thoughts of fears, of troub-

bles, of shabby looks.

And whispers of a sleeping moon,

I heard the music that the dawn red plays.

I saw a gentle twilight ebb away.

I saw the moonrise in a glorious blaze;

I saw the evening follow after day.

The thunder could but never be heard,

Beyond the hills there may have been a storm.

The sun set, the glories fell upon mine ear,

And the heart of gladness fell upon the heart of warmth.

Ah, that your music may have made me more than most,

Than my heart could ever understand,

But I have seen full fifteen merry years.

Of children tread with you a fairland,

And the world played? What art you ever can win?

The pride of critics greater than who, that still stir thy happy heart,

Who, that stir thy happy heart,

Give them a glimpse of what the angels see.

—By request of T.L.N. Regina.

DETECTIVE INSPECTOR R.C. MURDOCH, wearing his brown leather belt and shoulder stars, is shown in his office at the Royal Alexandra Hospital on Jasper Avenue. He is the man who made the headlines last week when he arrested a lecherous old man who had taken only a few drops—not a dose of iodine.

She was brought to the police station and put in the care of a matron at the Royal Alexandra Hospital. Dr. John Leslie, up to his ears in Police court work, toiled all night to save her life.

Decedated came from Darwell, Alta., and leaves a wife and two children. He was employed at the Penn Mine.

Young Girl Takes Few Drops Poison

City police headquarters received a call about 11 p.m. Saturday night that a girl had taken poison.

An investigation, police officers said, showed that Donald John, a ward of the government, and residing at 1206 103rd Street, had taken a small dose of iodine.

He is 17 years of age and is reported to have escaped from several children's institutions in the city.

She was brought to the police station and put in the care of a matron at the Royal Alexandra Hospital on Jasper Avenue. Dr. John Leslie, up to his ears in Police court work, toiled all night to save her life.

Decedated came from Darwell, Alta., and leaves a wife and two children. He was employed at the Penn Mine.

Fourteen Cases Of Chickenpox In City

Fourteen cases of chickenpox were reported to the city health department Saturday night, making a total of 14 cases.

Dr. J. A. McClory, medical officer of health, said that the disease had been reported in 174 homes in the city.

Fourteen cases of chickenpox were given to the city health department Saturday night, making a total of 174 cases in the city.

Dr. J. A. McClory, medical officer of health, said that the disease had been reported in 174 homes in the city.

J. REINHART

IS GIVEN TWO YEARS IN JAIL

Found Guilty Saturday of Demanding Money With Menace

Don't forget to mark the cross each year. Remember you can't get away from us. Our next warning will be given in the fall.

In the style of the old Black Hand and Camorra societies than the new Black Hand. It is a shock to the system to be told that you are to be shot.

Meantime the Monarch will be rebuilt and the Robinson Update, largest concern, while commercial use of the building will be suspended.

A score of free attractions will be available right here in the city.

Young Edmonton Girl Considered As Contender for Swimming Honors

CARMAN M'RAE MAY GO EAST TO TORONTO

16-Year-Old Provincial 1
Mile Champion May Get
Local Backing

GERALD McLELLAN, the sixteen-year-old swimmer from Jasper, who is competing in the auto swimming races at Gulf Lake for the provincial championships, may be seriously considered for the Canadian team.

The Barker Club, Toronto, which is com-

peting in the open lake at Toronto, and

being a national competition for

amateurs, generally calls out some of the best talent.

For the first time—once—for women, held on August 19 next, and the men's race which takes place on September 1.

A determined effort is being made by the Barker Club to get Gerald—
for Miss McLeellan is a south-sider—
as one of the members needed to send her east.

Henry C. Graveline, the vice-president,

who is an official of the South Side Club, said on Friday that

everyone in consider ways and means,

and whether it is advisable to seek

the purpose of securing the funds.

HAS FAIR CHANCE

"Gerald has a fair chance probably a little more, to send the speedy swimmer to Toronto, but I don't believe that she is the best chance of winning."

Those who saw the Gulf Lake race

will remember that she swam the

whole mile, and that her time for the mile can be bettered if she is re-

quested to do so.

It is believed that the South Side Club will be instrumental in getting the proposal.

The suggestion has also been made

that the local swimming clubs and citizens should be asked to furnish ten dollar subscriptions to meet the ex-

Action will be to take quickly

and to let the public know that

Miss McLeellan should train at Toronto

for some time before racing.

Those who saw the Gulf Lake race

will remember that the 14-mile marathon swim at the Canadian National exhibition at Toronto last summer was won by Miss McLeellan.

After the race, she was interviewed

by the press, and was asked

if she intended to compete in the

marathon race at the Dominion Games.

She said that she had no definite

plans, but that she would like to

try the 14-mile race again.

Those who saw the Gulf Lake race

will remember that she swam the

whole mile, and that her time for the

14-mile race was 202 for attendance.

The sessions took place in the

large hall of the Canadian National

exhibition at Toronto, and the

swimmers were all from the city of

Toronto, and the water was

very cold.
